

1 In groups, **find** five questions you would ask someone you meet for the first time. Then **select** your group's best three questions.

1.
2.
3.
4.
5.

2 With your whole class, **select** a total of ten questions.

3 **Write down** the questions chosen with the class in the grid on the next page and **answer** them for yourself.

4 **Go** and **find** four classmates you don't know. **Ask** them the ten questions and **write down** their answers in the classmate columns.

5 **Write** a short paragraph where you describe one of your classmates and **introduce** a lie. Then **read** your description to a classmate and **make** him/her guess what the lie is.
